

Dear Mr. Snow, SEP 07 1993

0684

It has come to my attention that MWD  
has an opportunity to do a great thing by  
preserving and improving the environment  
of the Central Valley and the San Francisco  
Bay at the same time. Please commit to  
protection of our resources by eliminating dam  
proposals or expansions to canals & reservoirs.  
There are many ways to get agriculture  
the water they want through conservation  
and better management. I firmly object  
to your tax dollars being spent for a way that  
threatens the Pacific Flyway and the Bay. Dudes don't  
make much. P. Takigawa
